Survey Suptt's No. 306 dated 13th August 1891

On receipt of the above the Superintendent Mysore Revenue Survey gave the following endorsement to the Petitioner.

After an examination of the classification papers the Petitioner's complaint has been considered groundless while his statement that his lands have been classed higher than those of other Ryots is found to be absurd. The Suptt sees no reason to alter the assessment.

Query

1.- The Petitioner quotes in his Petn two Cases in which extensive (pasture?) Lands - 2000 acres have been granted for a Kandayam of 8 as: per acre. The Supt: may be asked if the Petrs statement is true, and if so to state briefly the circumstances connected with those two Cases.

2 In the Concluding portion of the Petn the Petrs state that even his Kandayam Lands have been sold by auction & purchased by a Mussal man. Why & when were the Lands sold? And if so, what right has Petr to apply for reduction of assessment etc.

To,

The Chief Secretary to the
Government of Mysore

Sir,

I have the honor, in compliance with your Official Memorandum No. 37 of the 14th December 1891 forwarding with its 3 enclosures, Petition No. 1914/1891 dated 12th November 1891, to return the same, submitting, as desired, Proceedings in the case under reference with a Precis of the same.

The case is one of those in which the occupant of Hulgavadi land

land seeks to hold the same at less than full Survey rates. The Petitioner not only wants the Survey rates on his "Sagwali" lands in Chamiyapur reduced to 8 annas an acre but he wishes to hold the Khrab lands at 2 annas per acre. In short, what the Petitioner desires is a permanent pasturage rate, which is inadmissible under the Survey system of assessment and settlement. In some few very exceptional instances, in which it would have been hard to disturb the possession of Wuldgavad land, rates have been fixed

In order to cultivate this new land I have again to spend great deal, and undergo all sorts of trouble and trials. Therefore as my cattle and that of my Ryots are suffering very much for want of grazing land. I consented to take all fit land at the proposed rate of 6 annas per acre; but the Superintendent says that I should take good and bad at the same rate which your Honor may think unreasonable, and entail upon me great hardship. Petition dated 2nd April 1891

Patrick Keiden residing in Bangalore, presented a petition to the Civil & Sessions Judge praying that the assessment upon his land in the villages of Yamnoor and Kharagpur of the district may be reduced.

Hearing and his reply, rejected by the District Civil & Sessions Judge Rasanna Kumar.

Petition dated 1st May 1891 to the Civil & Sessions Judge of Bijapur

Stated that on a re-assessment of the Deputy Civil & Sessions Judge Rasanna Kumar, Asst Officer gave an assessment (copy dated 16th April 1891) to the effect that the assessment could not be reduced and that the Collector had been in his favour before the Deputy Commissioner

ment) being the only
one available in the
village for the cattle,
and granted free to the
Ryots.

The Petitioner prays on
the following grounds that
the rate on his dry lands
may be reduced to Annas
per acre and that the
pasture land together
with the Tumbi tree
standing thereon be re-
stored to him.

That from the year
1862 down to the year of
Survey Settlement the
land was held as one of dry
land on a permanent
assessment of 2 Rupees
at

follows.

As to his complaint that his lands have been assessed too highly, the petition in the statement attached thereto for itemization, to give him being too high, they are, if anything, decidedly moderate. The petitioner, however, made no objection whatever, to the petition at the time of settlement, but retained the privilege required, and relinquished that he did not assert.

As to the fourth head the petition is with the fact of such lands being held at a merely nominal rate for a series of years justifies the petitioner's claim to such lands at a reduced rate for 30 years. There are

numerous

numerous cases of this
nature in this Court, and
as far as the Deputy Clerk
has rejected to listen to
them. If the Petitioner's claim
be admitted, the Deputy Clerk
states, there will be no end
to similar claims being
submitted, and inevitable
result will be that the
General Court of the whole
Tribe will be in the
possession of a few in-
dividual men who will
refuse to allow the Rights
cattle to graze under such
conditions as they see fit.
In the case under report, the
Rights rejected straightway
the "General Number" being
given to the Petitioner, and
stated that they had to
pay a penalty for the
privilege

privilege of grazing their
cattle in his Zamindari.

In conclusion the Deputy
Collector stated that, in his
opinion, the system of
granting large tracts of
land at a nominal rate
to a few influential
land-holders is not only
wrong in principle, and
of very doubtful advant-
-age to Government, but
in the case of certain
communities if not positive
hardship to the majority of
the Ryots in the villages
where the system obtains.

The Superintendent, Nilgiris
upon, issued an endorse-
-ment to the Petitioner that
the rates upon his culti-
-vated lands were ex-
-ceedingly moderate and
not

No. 1137/99
June 1899

not higher than he was
paying higher, & regards
the Original Lands the
very nature of the tenure
shows that the Petitioner
has no claim to Relief as
an Occupying tenure which
would confer rights for
arrears of those never enjoyed
by him. The Petitioner
prayed that would be re-
-versed & the said annuity
by public auction instead
of giving it free to the
villagers.

Dated
June 1891

Against the Petitioner
presented a Petition to the
Superintendent of Jhansi
Revenue Survey - denying
the following points in the
notice.

To the Senate and House of Representatives of the United States in Congress assembled.

Your petitioners, citizens of Fairbanks, Alaska, respectfully represent that the nearest land office to Fairbanks is situated at Eagle City, Alaska, a distance of 160 miles by the usual route of travel; that the only means of transportation between these points is by steamboat, which is navigable only during the months of June, July, August and September; that the round trip by steamboat requires from seven to ten days, and the fare is $50.00; that the only means of transportation between these points during the remainder of the year is by dog team, which is very expensive, and that the round trip requires from twenty to thirty days; that the land office at Eagle City is inconvenient of access to the people of the Tanana Valley, and that the establishment of a land office at Fairbanks, Alaska, would be a great convenience to the people of the Tanana Valley, and would greatly facilitate the settlement of the public lands in said valley.

Wherefore your petitioners pray that a land office be established at Fairbanks, Alaska, with jurisdiction over the following described public lands, to wit: [illegible] and your petitioners will ever pray.

Petitioner applies to me with reference to his petition dated 1st May 1911, informed that the Superintendent finds on enquiry that the water imbased by the Surveyor in his estimate of Rs 40 per acre for wet lands are exceedingly moderate and not higher than he ever fixes before and that there is no foundation whatever for his complaint against the Surveyor aforesaid.

2. In regard to the land in which petitioner says fixing Tank gauge, water the new ...

of the Tenure shows that he has no claim to hold these Lands on Kanda-yan Tenure which would confer rights for years of those now enjoyed by the Petitioners over the Lands in question. The Supt will however direct that Survey No 20 of Chamigapura measuring 1.29 acres, should be set aside for sale by public auction annually instead of being given free to the villagers.

The petitioner in this petition owns an estate (Inam?) Land which have been granted for a Kandayam of Rs 500 per annum. The petitioner may be asked if the Inam estate is Inam given to start with the cultivation of these lands.

In the concluding portion of this petition the petitioner states that the Kandayam Lands have been resumed by Government for non-payment. Whether when the Lands were given what was the petitioner to pay, a question of objection?

Survey Superintendent's Office

Bangalore 25th April 1892

To,

The Chief Secretary to the

Government of Mysore

Sir,

I have the honor in reply to your letter No. 1931 dated 8th February 1892 on the subject of the complaint of Capt Nicholson of Bangalore (Petition No. 43) to furnish the following information and enclosed in Khaliada Report of 31st March last and the Officiating Deputy Superintendent's Report No. 163 of the 22nd instant

on

on the same. Both the above are

founded in original, & the Party

returned.

2 There appears to have been

an instance in which 99 years and

21 years were granted to one Party

at 3 pound per acre. The builder

states that the land in question

was granted to Pettifer because

he had a respectable Estate and

paid a large amount of Taxes

-yes. I should imagine that

Colonel Butterfield would not

himself admit these reasons but

rather those contained in Pettifer

having held possession by purchase

and

and in there being no object in
refusing it added at 2 annas per
acre considering the character of
the land. The other considerations
in which 6½ acres were given out
at 2 annas per acre is trivial
and although it is not stated
I have no doubt the reason in-
=fluencing the Settlement Officer
must have been very strong in-
=deed.

3 Petitioner having relin-
=quished 3½ acres of
assessed land, there was a
matter of course relief by fresh
section. His statement on that
point is perfectly misleading.

4

4 The state of the case, even with the information now afforded, remains that described in my letter No. 69 of the 26th January 1892 to your address.

5 It will be seen that Petitioner's lands in Chaniza = four have been resumed by the Survey at Rs 38. Assignment Rs 63. ii & old assessment. The files of Papers returned with your docket No 20 of the 9th instant is herewith submitted.

Appeal No. 43 of 89/92.

Appellant. Vs. Respondent.

Mr. Rāja Naidu of Bangalore,

Decision, dt 31.5.92.

Petitioner's complaint is as to two things (1) that the assessment of lands Rs. 1-6-2½ in Channigapura, Anekal Taluk, (32.24 acres) which formerly bore Rs. 2-3-0½ was simply raised by the Survey Deptt to Rs. 4-8-0, and (2) that the numbers noted in the margin consisting of 127 acres which were formerly held by him on Kudkanam assessment of Rs. 2-3-0½ was excluded from his holding & added as Kharab during the Survey 89/90. He requested that the assessment of the first set of lands may be reduced to 2-8-0 an acre, & that the Kudkanam lands may be made over to him at Rs. 2 an acre.

Nos 16, 17, 18	19,
20, 22, 23, 24	28,
29–34.	

D

2. Petitioner has not assigned any adequate reason for reducing the assessment as he has to do, this Prayer is therefore rejected. As regards the cultivated lands, which are not annually sold for grazing purposes, the Govt. admits that some consideration is due to Petitioner, as he is stated to have been in possession of those lands for upwards of 30 years. He cannot be allowed to hold the lands on this reduced assessment, but a moderate assessment [illegible] may be charged and [illegible] made over to him if he is willing, to take [illegible] on that assessment. The Govt. of Bombay will accordingly be requested to impose a moderate assessment on the land and offer the same to Petitioner.

ABSTRACT.

With reference to this office endorsement no: 2995, dated 17th June 1893, the petitioner resubmits his petition with two Rupees stamp affixed. The Revenue Superintendent is requested.

23/6.

Head Assistant. Petitioner's appeal against the assessment of his land at Rs 6 per acre. Petitioner's land was classed as 2nd class and assessed at Rs 6 per acre. Petitioner appealed to the Survey Supdt, who reduced the assessment to Rs 4 per acre. Petitioner appealed to the Collector, who confirmed the Survey Supdt's order. Petitioner now appeals to the Commissioner.

Survey Supdt

In time.

The appeal is from an order passed by the Survey Supdt, apparently under Sec. III of the Act, fixing a certain assessment. The Additional Collector points out that the duties of members of the Council do not seem to comprise an appeal from such an order. Government however has been moved under Sec. 112 before, & hence the assessment fixed.

The facts, briefly are:—

Petitioners have been in possession of 127 acres of land on the Kaval Department for about 30 years. At the time of settlement in 1891 the land was treated as kharal and assessed from Rs 2½ to Rs 4 per acre. On appeal the Govt pleader said Rs 4 could not be allowed & held the land as Hulgaval assessment, and asked the Survey Supdt to impose a moderate dry assessment on the land and to offer it to petitioner. The Survey Supdt assessed it at 6 annas per acre, and in reply to petitioner's remonstrance wrote that the rate had been fixed in consideration of the rates on other adjacent lands in the village (the lowest rate of which being Rs 1-4 per acre) and of the fact that the land contained stony soil and that he is of opinion that 6 annas per acre is very moderate. He further stated he would make up the good portion at that rate and agreed that the inferior portion be given him at 4 annas per acre, but the Survey Supdt declined to allow it. The Petitioner begs that on grounds made before Survey Supdt & Collector & also mentioned above, the assessment may be reduced to 4 annas per acre.

In continuation of my Petition dated 2nd January 1893, I most respectfully and humbly beg once more to submit the following my grievances for your early favorable consideration and orders.

That Mr. Saunders's employment against the express Rules of the Survey Superintendence to encroach into my dry land attached to village named Chennagiri, Kasba Taluq, Davangere Amildar District, which was reserved at time of Inam Settlement a moderate appointment and appointing Circle Inamdar was entirely to the detriment of the Inamdars interests as stated in my Petition dated 2nd January 1892.

That the Superintendence has taken charge of entire Tank Bunds of the Tank of Chennagiri village of the land of more than one hundred Candies capacity and the

the grant for 1½ acres for one, and a grant for the other for eight acres. The Defendant has filed his answer dated 2 February 1893, denying that after examining the entry in the Register's Office, he credits that Lands are to be surveyed. That Plaintiff's entry for the eight acres has been given to Plaintiff, Lands erroneously surveyed and entered, but that Defendant, that the land in question being vacant, for from the Entry the surveyed one is very high, and therefore, that the eight acres was granted for 1½ acres only. The Defendant therein filed his answer dated the 6th & 15th June, 93, saying that he was employed in the examination that the Lands entered by Plaintiff and Def. That Defendant the Register's Office, that, in what examination Lands entered by Plaintiff and Def. were granted, Register's Office Certificate, and by the Entry was for 8 acres only, and only should not be given with the Lands entered by Plaintiff, that the eight acres granted for 1½ acres; that the Defendant's Land and Entry stating that Plaintiff was entitled with his settlement of the Land Surveyed to Government.

That, therefore, I have on the evidence, that Plaintiff entering for 8 acres, and it appears that while the Defendant's Land were granted without Lands to Plaintiff's entry. They are for eight acres, without reference

With reference to your Endorsement No. 5/1313 dt. ABSTRACT.

With reference to Government No. 2333 dt. 6-7-95 stating that the claims of inferior grantees and tenants to timber forest trees on lands to be leased separately and forfeited to Government in those proceedings but that the Collector should form a tentative estimate of the value of such trees and should not include them in the lease but should intimate to the lessee that he will be entitled to the timber on payment of the value so estimated, the Petitioner requests that the Collector may be directed to grant him a lease of the timber trees on the land applied for by him.

The file is put up.

Sir,

With reference to your official memo, Section No 230-82 dated 2nd August 1885 forwarding for favour of report a petition regarding the sale of certain land in the Survey department in the Chennagiri Taluk applied for by one in Channigaiyan Village (Chennagiri) Circle Taluk, I have the honor to state that I inspected the lands in question towards the close of last month. Rajaya Naika now in the land claimed a small tank, which are situated in the limits of a neighbouring village named Talavara Kallalli. In Channigaiyan Village there are of manure which are full of leaves and cane, and are in some places surrounded by hedges, with the exception of two. Portions of this tank have already been retained on

assessment by the Agent, and the land is used as grazing, the annual Value of farm being taken by themselves.

2. Any material diminution of pasture caused in my opinion by efficient depreciation, or the retention of cultivation on the land and the entailment given for cattle or other causes fairly & direct injurious, or the due extent keeping of the Servitude. The Agent in the present instance at first objected to the Lands being deemed to Support cattle at all, but ultimately consented to a moiety Value given to him. This arrangement may, I think, be approved. In fact there are in Lagore Estate called 300 heads of cattle, and about one thousand sheep and goats. The total Value about £20. The Jones assigned for the Cane is £4-3s, but it is stated that many of this year not grow at all, being, barley, &c.

3. Supposing a Cattle appointed for 40 acres, but remaining the above assessment 20 acres may be allotted to him.

4. The Agent's Fee, paid by the Tenant, I am of opinion sufficient to remunerate me

opinion after the enquiries declaration made by the Superintendent of Nairn. Copy of which goes the minutes of the last Court of Session Aberdeen and Inverness Circuit. I am not of course aware that the Application case is parallel with these precedents. But I venture to think and deal opinion is in favour of this view, — that I cannot see may be charged on the store duty without loss to Government.

3. The minutes are returned, together with the 2d General Assistant Commissioners report on the case.

(2) Letter no 52 dated 14th July 1896 from the Deputy Commr Bangalore District, ~~reporting~~ stating that 20 acres may be granted to the petitioner on an assessment at ~~the rate of~~ four annas per acre.

(3) Letter no 169 dated 26th August 1896 from the Supt of Rev. Survey in Mysore Stating, in reply to this office no 1656 P. 7200-92 dated 11th August 1896, that the ~~assessment at~~ the rate of six annas per acre for

the land applied for by the petitioner is moderate and that the average rate of assessment on the dry crop lands in the village is about Rs 1-8-0 per acre.

Order No. 3061-62 / P.P. 200-92) dt. 18.9.95

The proposal of the Survey Superintendent is very fair. Where the average rate is Rs 1-8-0, six annas cannot but be regarded as very moderate. Twenty acres of land may be given to the petitioner at this rate.

Proceedings of the Govt of Bengal

Read again

Proceedings of Govt No 3061 / P.P. 20-92 dated the 18th Sept 1896 stating that 20 acres of land may be given to Peter Lapsa Raidin at 6 annas per acre at Chamiga-pur, Anekal Taluk.

(923) Order No 4508-9. / P.P. 200-92 } 15.12.96.

Upon a representation made by Peter Lapsa Raidin, the Govt have again had under their consideration the papers relating to the said complaint concerning the grant of assessed to be fixed on the 127 acres of land at Chamigapura held by him on Ryotwari tenure before the Survey Settlement; and they are of opinion that the order of the 18th September 1896 requires further consideration. Said order was passed on the information

Mont Jones 34/16 de Lavan in
Butte No 52 dated the 4th July
1916 stating that he was entitled
be granted a Pre-emt Lease
per acre out of the 40 acres
applied for by him, whilst
to lands within Area the 127
acres of Mineral land referred
to in the decision of Govt in
Appeal No 143 of 1915-16, but
it is seen that what the Pet
applied for was a favourable rate
of assessment on the acres of
Mineral land comprised in the
area of 127 acres referred to, and
not any new land.

The Dy Comm, in view of
the letter referred to above, recommended
the reservation of 20 acres for
purpose of formalizing the recommendation
is inconsistent with the decision
of Govt confirming 127 acres to
Pet. - the whole land will
be granted to the Pet, i.e. the 40
acres of Mineral land,
working in all 127 acres - at the
rate fixed by the decision of Govt.
No reduction of the rate can be
permitted.
